

**MOORPARK CITY COUNCIL
AGENDA REPORT**

TO: The Honorable City Council

FROM: Mary Lindley, Parks, Recreation, and Community Services Director

DATE: June 8, 2006 (CC meeting of June 21, 2006)

SUBJECT: Consider VISTA-East Cooperative Agreement for Commuter Bus Services 

BACKGROUND

In July, 1994 the Ventura Intercity Service Transit Authority (VISTA) began providing express commuter fixed route bus services through a Cooperative Agreement among the participating jurisdictions. The VISTA-East route links local transit systems in Moorpark, Simi Valley, and Thousand Oaks to Metrolink and other VISTA routes throughout Ventura County. The Cooperative Agreement provides funding for VISTA-East. It is renewed annually with an Addendum (Attachment "1") that documents how the cost will be distributed. The VISTA routes are administered for the member jurisdictions by the Ventura County Transportation Commission (VCTC).

The VISTA-East Northbound makes eleven round trips on weekdays (the Southbound bus has one additional one-way trip) from approximately 6:00 am to 7:00 pm with headways of about one hour between trips during peak hours and headways of about two hours between trips during off-peak hours. On Saturdays, there are eight round trips from approximately 7:00 am to 6:00 pm with headways of about one hour between trips during peak hours and headways of about two hours between trips during off-peak hours.

As the Council may recall, transit operators must meet a certain farebox ratio in order to receive Transportation Development Act (TDA) funding from the ¼¢ state sales tax. VISTA-East has had to meet a farebox ratio equal to 20% of its operating expenses. If the 20% is attained from the farebox revenue, the remaining 80% may be eligible for TDA or other state or federal subsidy. The VISTA-East route had a farebox ratio of 26% in the first six months of FY 2005/06. The fare for VISTA-East is \$1.00 for regular passengers and \$0.50 for seniors 62+ and persons with disabilities. Children aged five and younger ride free. This fare structure is identical to Moorpark City Transit.

DISCUSSION

The VISTA-East Committee comprised of elected officials from the cities of Moorpark (Councilmember Millhouse), Simi Valley, and Thousand Oaks met on May 31, 2006. The agenda for the meeting included cost sharing arrangements, consideration for an increase in compensation rates due to fuel cost increases, and the VISTA-East Cooperative Agreement. The Committee also reviewed the VISTA passenger surveys. The Committee agreed to increase the contractor's (CUSA) operating service rate for FY 2006/07 to reflect the increasing cost of fuel. The method selected reimbursed the contractor for excess inflationary fuel costs incurred during the past year (beyond the 3.75% per year compounded rate). This is a one time consideration, since VCTC's contract with CUSA expires after the coming fiscal year.

The total annual cost to operate the VISTA-East service for FY 2005/06 is estimated to be \$575,948. The federal share is \$296,759. Anticipated fare revenue is \$57,000. This leaves \$222,189 to be funded by the cities.

As it has done since the implementation of VISTA-East, the three cities agreed to share costs based on population. Moorpark's population is 12.6% of the three-city total, up from 12.5% last year. Moorpark's share of VISTA-East expense will be \$27,996 out of the total local cost of \$222,189. The proposed City FY 2006/07 Budget includes \$25,000 for Vista East. Staff will prepare a budget amendment for a future Council meeting to allocate an additional \$2,993 from the City's TDA Fund to cover the cost increase. Approximately 87% of the VISTA-East ridership resides in one of the three sponsoring cities, Moorpark, Simi Valley and Thousand Oaks. City of Moorpark residents comprised 22% of the ridership from those cities, based upon a VCTC on-board survey of VISTA-East riders (percentages are a combination of weekday and weekend surveys).

PERFORMANCE REPORTING

On a quarterly basis, VCTC will calculate and provide operating statistics and performance indicators for Weekday service, Saturday service, and for All Periods combined, for monthly, quarterly, and total year-to-date periods, to include:

- Farebox Revenues
- Farebox Recovery Ratio*
- Contractor Operating Cost
- Total Adjusted Operating Costs
- Passengers
- Total Operating Cost per Passenger
- Vehicle Service Hours
- Total Operating Cost per Vehicle Service Hour
- Passengers per Vehicle Service Hour
- Total Hours
- Vehicle Service Miles
- Passengers per Vehicle Service Mile
- Total Miles

* Farebox Recovery Ratios shown will be the adjusted ratio so that all transit systems may be compared equally. For all VISTA contract services, this means that operating costs equal the sum of operating and maintenance costs contained in each contract, or, conversely, contract costs minus all capital costs.
