**SUBJECT: Consider VISTA-East Cooperative Agreement Amendment for
Commuter Bus Services**

BACKGROUND

In July, 1994 the Ventura Intercity Service Transit Authority (VISTA) began providing express commuter fixed route bus services through a Cooperative Agreement among the participating jurisdictions. The VISTA-East route links local transit systems in Moorpark, Simi Valley, and Thousand Oaks to Metrolink and other VISTA routes throughout Ventura County. The Cooperative Agreement provides funding for VISTA-East. It is renewed annually with an Addendum (Attachment "1") that documents how the cost will be distributed. The VISTA routes are administered for the member jurisdictions by the Ventura County Transportation Commission (VCTC).

The VISTA-East Northbound makes eleven round trips on weekdays (the Southbound bus has one additional one-way trip) from approximately 6:00 a.m. to 7:30 p.m. with headways of about one hour between trips during peak hours and headways of about two hours between trips during off-peak hours. On Saturdays, there are eight round trips from approximately 7:00 a.m. to 6:20 p.m. with headways of about one hour between trips during peak hours and headways of about two hours between trips during off-peak hours.

As the Council may recall, transit operators must meet a certain farebox ratio in order to receive Transportation Development Act (TDA) funding from the ¼¢ state sales tax. VISTA-East has had to meet a farebox ratio equal to 20% of its operating expenses. If the 20% is attained from the farebox revenue, the remaining 80% may be eligible for TDA or other state or federal subsidy. The VISTA-East route had a farebox ratio of 26.17% in the first six months of FY 2009/10. The fare for VISTA-East is \$1.00 for regular passengers and \$0.50 for seniors 62+ and persons with disabilities. Children aged five and younger ride for free. This fare structure is identical to Moorpark City Transit.

DISCUSSION

The VISTA-East Committee comprised of elected officials from the cities of Moorpark (Councilmember Millhouse), Simi Valley, and Thousand Oaks met at the regular VCTC meeting on June 4, 2010. The agenda for the meeting included cost sharing arrangements, the VISTA-East Cooperative Agreement, and VISTA ridership and service indicators (under separate agenda item). The VCTC approved the Agreement on June 4, 2010 as well.

The total annual cost to operate the VISTA-East service for FY 2010/11 is estimated to be \$700,704. The federal share is \$336,374. Anticipated fare revenue is \$83,000. The remaining cost of \$281,330 will be funded by the cities.

The VISTA-East Agreement requires that the three cities share costs based on population. Moorpark's population is 12.72% of the three-city total, slightly higher than last year's percentage of 12.65%. Moorpark's share of VISTA-East expense will be \$35,785.18 out of the total local cost of \$281,330. The proposed City FY 2010/11 Budget includes sufficient funds for VISTA-East.

Some highlights of recent changes to the VISTA-East service in FY 2009/10 include moving the Moorpark Metrolink Station VISTA-East stop to High Street. This decreased VISTA's travel time by no longer waiting at the Metrolink South Parking Lot to exit. The VISTA service also extended service to the Farmers Insurance/Park-and-Ride in Simi Valley and the Conejo Industrial Park/Amgen/Atherton-Blue Cross site.

FISCAL IMPACT

Moorpark's contribution for FY 2010/11 VISTA-East services is \$35,785.18. The City's FY 2010/11 budget includes \$37,000 for VISTA-East services.

PERFORMANCE REPORTING

On a quarterly basis, VCTC will calculate and provide operating statistics and performance indicators for Weekday service, Saturday service, and for All Periods combined, for monthly, quarterly, and total year-to-date periods, to include:

- Farebox Revenues
- Farebox Recovery Ratio*
- Contractor Operating Cost
- Total Adjusted Operating Costs
- Passengers
- Total Operating Cost per Passenger
- Vehicle Service Hours
- Total Operating Cost per Vehicle Service Hour
- Passengers per Vehicle Service Hour
- Total Hours
- Vehicle Service Miles
- Passengers per Vehicle Service Mile
- Total Miles

* Farebox Recovery Ratios shown will be the adjusted ratio so that all transit systems may be compared equally. For all VISTA contract services, this means that operating costs equal the sum of operating and maintenance costs contained in each contract, or, conversely, contract costs minus all capital costs.
