

**MOORPARK CITY COUNCIL
AGENDA REPORT**

TO: The Honorable City Council

FROM: Mary Lindley, Parks, Recreation, and Community Services Director 

Prepared by: Shaun Kroes, Management Analyst 

DATE: February 8, 2007 (CC meeting of February 21, 2007)

SUBJECT: Consider 2005 Annual AB 939 Solid Waste Diversion Report to the Integrated Waste Management Board

SUMMARY

The Council is being asked to receive and file the 2005 Annual Report for AB 939 solid waste diversion (Attachment A). The City's 2005 Annual Report identifies Moorpark's diversion rate as 60%. If approved by the CIWMB, the City will be in compliance with the state law by meeting the 50% diversion requirement for cities and counties.

DISCUSSION

The California Integrated Waste Management Act of 1989 (AB 939) established goals to divert solid waste from landfills. Each City and County was required to do a Solid Waste Generation Study and implementation plans called the Source Reduction and Recycling Element (SRRE), Household Hazardous Waste Element (HHWE), and Non-Disposal Facility Element (NDFE). The City's SRRE, HHWE, and NDFE were completed in 1991.

The Solid Waste Generation Study and its associated elements (SRRE, HHWE, and NDFE) established the basis to measure the progress achieved by the AB 939 programs adopted by the City. Jurisdictions had to divert 25% of their waste stream from landfills by 1995, and 50% beginning in 2000. Thereafter, a 50% diversion rate must be maintained for a jurisdiction to stay in compliance with the law. Jurisdictions that fail to meet their diversion goals and fail to demonstrate a good-faith effort may be fined up to \$10,000 per day by the state.

Solid waste diversion consists of: source reduction (waste minimization, such as saving paper with two-sided copies); recycling; re-use; composting; and transformation (waste to energy conversion, biofuel, etc.) Moorpark's 1990 starting point was a 15.3% diversion rate. The CIWMB reviews the Annual Reports of each city and county every other year, in a biennial review process. The 2005 Annual Report will be reviewed by the CIWMB along with next year's 2006 Annual Report.

Another component of the 2005 Annual Report and CIWMB's effort to ensure AB 939 compliance by jurisdictions is to track diversion programs adopted by the jurisdiction. The diversion programs identify how the City of Moorpark plans to obtain its diversion mandate of 50%. Moorpark's diversion programs have been established through the City's original SRRE, as well as through other programs adopted by the Council over the years. The diversion programs established by a jurisdiction also measure a jurisdiction's "good faith effort" towards AB 939 compliance.

This year's Annual Report includes a Summary Report for Large Venues and Events (Attachment C). Passed in 2004, AB 2176 requires large venue facilities and events in each city and county to plan for solid waste reduction. Local governments are required to report annually to the CIWMB on the recycling and waste reduction programs of the top 10% of the large venues and large events in their jurisdictions. Large events in Moorpark affected by AB 2176 include the 3rd of July Celebration, and Moorpark Country Days.

As mentioned above, Moorpark's 2005 diversion rate is 60% up from 58%. Staff attributes this to the City lowering its solid waste generation tonnage (roughly 550 tons less than in 2004) while continuing to grow in size, as well as to the state's recent adjustment to its calculation method. Attachment B provides a history of the City's diversion rate. The 1999 Diversion Rate was not calculated due to the City's new Base Year study, which was approved by CIWMB in February 2003. The new Base Year reflects a more accurate disposal tonnage, which has increased the City's diversion numbers.

STAFF RECOMMENDATION

Receive and File.

Attachment A – 2005 Annual Report
Attachment B – Diversion Rate History (1995-2005)
Attachment C – Large Venue and Event Summary Report

Reporting-Year Diversion Rate (%):	60%	

Diversion Rate Accuracy:

Question:

1. Are there extenuating circumstances pertaining to your jurisdiction's diversion rate that the Board should consider, as authorized by the Public Resources Code Section 41821(c). If so, please use the space below to tell the Board. If you wish to attach additional information to your annual report, please send those items or electronic files to your OLA representative; include a brief description of those files below.

Jurisdiction's response:

No response from Jurisdiction.

Section C

C-1 Existing SRRE and HHWE programs.

Program Code	Program Name:	Owned and Operated	Program Tons	Status:	Reason:	Target Sector:
1000-SR-XGC	Xeriscaping/Grasscycling	Yes	N/A	Alternative and Ongoing		Residential, Commercial, Industrial, Government

Additions to Program Notes: Per 2005 AR: City continues to promote grasscycling/xeriscaping through City Newsletters and Free Compost Day. Some multifamily unit complexes, such as Regal Park HOA are exploring the possibility of converting entire condo association grounds to xeriscape.

1010-SR-BCM	Backyard and On-Site Composting/Mulching	Yes		Selected and Ongoing		Residential, School
-------------	--	-----	--	----------------------	--	---------------------

Additions to Program Notes: Per 2005 AR: The City of Moorpark continues its online compost bin order/delivery program. Residents can go to <http://composters.com/moorpark> and select either a Home Composter or Worm Bin. The City offers a \$50.00/item subsidy. The item is then delivered to the resident's address. The City also continues its Free Compost Day in May, supplying the public with free compost and mulch, which attracts a number of gardeners. Local compost and mulch is used throughout the landscaped areas maintained by the City. The landscape maintenance contractor, and the tree trimming service contract are each required to mulch or compost plant trimmings generated in Moorpark. Whenever possible, ground yard waste material is re-used in place.

1020-SR-BWR	Business Waste Reduction Program	Yes		Selected and Ongoing		Commercial
-------------	----------------------------------	-----	--	----------------------	--	------------

Additions to Program Notes: Per 2005 AR: The City of Moorpark has increased the detail of its required Waste Reduction and Recycling Plan. All new businesses, developers, remodels, etc., must complete a plan and report any diversion that occurs outside of the regular franchise solid waste haulers.

000051

1030-SR-PMT	Procurement	Yes	Selected and Ongoing	Government	Additions to Program Notes: Per 2005 AR: The City of Moorpark continues to monitor its procurement policies. Adjustments are in the stage of proposal and will be completed in time for the 2006 EAR.
1040-SR-SCH	School Source Reduction Programs	No	Selected and Ongoing	School	Additions to Program Notes: Per 2005 AR: The contracted waste hauler for all of Moorpark Unified School District, Moorpark Rubbish Disposal, provides recycling opportunity for school district. Many schools have an environmental club that organize recycling collections around campus.
1050-SR-GOV	Government Source Reduction Programs	Yes	Selected and Ongoing	Government	Additions to Program Notes: Per 2005 AR: The City of Moorpark continues to monitor its source reduction programs. Proposed program changes will be implemented in 2006.
1060-SR-MTE	Material Exchange, Thrift Shops	Yes	Selected and Ongoing	Residential, Commercial, Industrial	Additions to Program Notes: Per 2005 AR: Several thrift stores remain in Moorpark, particularly in the Downtown area. The City of Moorpark also continues to promote VCMAX and CALMAX, offering many people the opportunity to find products that they can use/donate without the need for purchasing new products or disposing of products that can still have a useful life.
2000-RC-CRB	Residential Curbside	Yes	Selected and Ongoing	Residential	Additions to Program Notes: Per 2005 AR: Residential curbside recycling of commingled materials has increased 27 percent since 2000, averaging 99 lbs/household/month in 2005. Contamination of commingled materials remains reportedly low.
2010-RC-DRP	Residential Drop-Off	No	Selected and Ongoing	Residential	Additions to Program Notes: Per 2005 AR: A public bin for recycling remains located within the city limits at the back of the Campus Park shopping center located at the intersection of Campus Park and Princeton Drives for residential drop-off. At this location very little contamination has been found. In addition to the bin, one of the City's haulers offers a free appliance drop-off program for all Moorpark residents. Both solid waste haulers offer a free bulky item collection for residential units.
2020-RC-BYB	Residential Buy-Back	No	Selected and Ongoing		Additions to Program Notes: Per 2005 AR: A buy back center remains available in the City of Moorpark behind the Ralph's Grocery Store on L.A. Avenue. Another buy back center is located on the east end of town in Simi Valley.
2030-RC-OSP	Commercial On-Site Pickup	No	Selected and Ongoing	Commercial	Additions to Program Notes: Per 2005 AR: The City of Moorpark remains interested in establishing a mandatory commercial recycling program. At this time, a program has not been created, but is strongly recommended. Staff will continue to work with the franchise solid waste haulers to determine best approach for increasing commercial recycling rates.

000052

2040-RC-SFH	Commercial Self-Haul	No	Alternative and Ongoing	Commercial
Additions to Program Notes:		Per 2005 AR: Commercial premises can opt to self-haul solid waste, although franchise solid waste service must be provided at all occupied premises. Recyclable material may also be sold or given away without violating the Municipal Code and franchise as long the generator does not pay to have the material removed.		
2060-RC-GOV	Government Recycling Programs	Yes	Alternative and Ongoing	Government
Additions to Program Notes:		Per 2005 AR: Staff continues to monitor and propose additional changes to the City's internal recycling and waste reduction policies. Additional programs/changes are proposed for 2006.		
2070-RC-SNL	Special Collection Seasonal (regular)	No	Selected and Ongoing	
Additions to Program Notes:		Per 2005 AR: Automated curbside recycling allows for the collection of phone books at any time. In addition, the regular recycling drop-off center at Princeton and Campus Park Drive can accept phone books for recycling. Christmas tree recycling remains popular as well, with residents permitted to place their trees at the curb the first two weeks after Christmas. The trees can also be recycled at any time using the regular greenwaste container, although the trees do need to be cut to an appropriate size for the container (64 or 96 gallons).		
2080-RC-SPE	Special Collection Events	No	Selected and Ongoing	Residential
Additions to Program Notes:		Per 2005 AR: The City's bulky item collection program continues to accept e-waste from the curb for free. E-waste may also be dropped off at the G.I. Industries yard in Simi Valley. More program additions will be implemented in 2006.		
3000-CM-RCG	Residential Curbside Greenwaste Collection	No	Selected and Ongoing	
Additions to Program Notes:		Per 2005 AR: Greenwaste diversion has increased 56% since automated solid waste collection began in 2003. This is attributable to the new greenwaste collection containers and public education outreach that began at that time.		
3010-CM-RSG	Residential Self-haul Greenwaste	No	Selected and Ongoing	
Additions to Program Notes:		Per 2005 AR: Greenwaste self-hauled to the Simi Valley landfill and Recycling center can be used for erosion control and ADC. The implementation of automated service has helped to reduce the amount of greenwaste self-hauled to the landfill from private homeowners. However, the City of Moorpark does permit landscapers to self-haul their generated greenwaste. To the best of the City's knowledge, the majority of this material is reused in some manner, either as compost, mulch/erosion control or as ADC.		
3020-CM-COG	Commercial On-Site Greenwaste Pick-up	No	Selected and Ongoing	Commercial
Additions to Program Notes:		Per 2005 AR: Some food markets have their unsold produce collected and compost/recycled at an off-site facility. The material is diverted from the landfill. Although not many businesses may have greenwaste collected by the franchise waste hauler, many do have a contracted landscape maintenance firm which then takes the material to a compost facility or the Simi Valley Landfill and Recycling Center, where again it is diverted from the landfill for either erosion control or ADC.		
3030-CM-	Commercial Self-Haul	No	Selected and	Commercial,

000053

CSG	Greenwaste		Ongoing	Industrial
	Additions to Program	Per 2005. As noted before, commercial landscape services are permitted to self-haul greenwaste to a location for diversion.		
	Notes:			
3040-CM-FWC	Food Waste Composting	No	Alternative and Ongoing	Residential
	Additions to Program	Per 2005 AR: Vermicompost online ordering and delivery program remains. Vermicompost bins are offered at a reduce rate thanks to a \$50.00 per household subsidy from the City.		
	Notes:			
3060-CM-GOV	Government Composting Programs	Yes	Selected and Ongoing	Government
	Additions to Program	Per 2005 AR: Grasscycling and compost are used when possible.		
	Notes:			
4010-SP-SLG	Sludge (sewage/industrial)	No	Selected and Ongoing	All sectors
	Additions to Program	Per 2005: Status remains the same.		
	Notes:			
4020-SP-TRS	Tires	No	Selected and Ongoing	
	Additions to Program	Per 2005: Responsible tire disposal is assumed to remain high in Moorpark as the City finds very few illegally dumped tires in its jurisdiction.		
	Notes:			
4030-SP-WHG	White Goods	No	Selected and Ongoing	Residential
	Additions to Program	Per 2005 AR: Both franchise waste haulers continue to pick up white goods from residents for free. A total of 4 items can be picked up each year, with a limit of 2 collections per year. White goods can also be taken to G.I. Industries for free.		
	Notes:			
4040-SP-SCM	Scrap Metal	No	Alternative and Ongoing	Commercial, Industrial
	Additions to Program	Per 2005 AR: Franchise waste haulers continue to use scrap metal dealers when possible to divert as much metallic materials as possible.		
	Notes:			
4050-SP-WDW	Wood Waste	Yes	Selected and Ongoing	Government
	Additions to Program	Per 2005: The grinding of woodwaste at the Simi Valley Landfill helps to reduce the amount of woodwaste going to the landfill for disposal, as this material is used for erosion control or ADC.		
	Notes:			
4060-SP-CAR	Concrete/Asphalt/Rubble	Yes	Selected and Ongoing	
	Additions to Program	Per 2005 AR: The City of Moorpark continues to promote diversion of concrete/asphalt/rubble, especially as construction of both residential and commercial units increases in the City.		
	Notes:			
4070-SP-DSD	Disaster Debris	No	Alternative and Ongoing	Residential, Commercial, Industrial, Government,

000054

School, All sectors

Additions to Program Notes: Per 2005 AR: The Simi Valley Landfill and Recycling Center maintains its protocols to segregate and quantify disaster debris. The City of Moorpark solid waste franchises require the solid waste haulers to assist in removing disaster debris. Room in the franchise has been made to allow for the use of additional solid waste haulers if the accumulated disaster is too much for the franchise haulers to manage in an acceptable time frame.

4090-SP-RND	Rendering	No	Alternative and Ongoing	Commercial
-------------	-----------	----	-------------------------	------------

Additions to Program Notes: Per 2005: Rendering containers continue to be monitored through NPDES inspections.

5000-ED-ELC	Electronic (radio ,TV, web, hotlines)	Yes	Selected and Ongoing	Residential, Commercial, Industrial, Government, School
-------------	---------------------------------------	-----	----------------------	---

Additions to Program Notes: Per 2005: With the eventual sunset of universal waste rules and increasing amount of hazardous and electric waste being generated, staff has devoted more time to promoting the proper management and diversion of household hazardous waste, universal waste, and electronic waste. Additional programs will be promoted in 2006 as grant funding becomes available.

5010-ED-PRN	Print (brochures, flyers, guides, news articles)	Yes	Selected and Ongoing	Residential, Commercial, Industrial, Government
-------------	--	-----	----------------------	---

Additions to Program Notes: Per 2005: Multiple print outlets continue as mentioned in recent years EARs.

5020-ED-OUT	Outreach (tech assistance, presentations, awards, fairs, field trips)	Yes	Selected and Ongoing	
-------------	---	-----	----------------------	--

Additions to Program Notes: Per 2005: The City of Moorpark has increased the number of presentations and field trips. A number of Boy/Girl Scout Troops and elementary school kids come to City Hall for a tour. Part of the tour includes waste reduction and recycling, particularly focused on what the children can do to help reduce pollution.

5030-ED-SCH	Schools (education and curriculum)	Yes	Selected and Ongoing	School
-------------	------------------------------------	-----	----------------------	--------

Additions to Program Notes: Per 2005: Staff began expanding its class presentations in 2005 (with more presentations in 2006). City of Moorpark continues to provide recycling and hazardous waste information to each student of the Moorpark Unified School District twice a year during the school assembly packet.

6000-PI-PLB	Product and Landfill Bans	No	Alternative and Ongoing	All sectors
-------------	---------------------------	----	-------------------------	-------------

Additions to Program Notes: Per 2005 AR: The City of Moorpark continues to monitor recent universal waste bans and other material bans from local landfills, such as the Simi Valley Landfill.

6010-PI-EIN	Economic Incentives	Yes	Selected and Ongoing	Residential, Commercial
-------------	---------------------	-----	----------------------	-------------------------

Additions to Program Notes: Per 2005. The City of Moorpark continues to promote recycling by offering reduced rates for both its residential and commercial services. Residents and businesses

000055

that recycle more of their generated waste pay less for solid waste service as more of their materials are diverted from the landfill.

6020-PI-ORD	Ordinances	Yes	Selected and Ongoing	Government
Additions to Program Notes: Per 2005: Solid waste ordinance updates are on-going. The City hopes to have a fully updated ordinance by 2007.				
7000-FR-MRF	MRF	No	Selected and Ongoing	Residential, Commercial, Industrial, Government
Additions to Program Notes: Each franchise waste hauler has its own recycling center that it goes to. At this time, G.I. Industries sends its recyclable materials to the Burbank Recycling Center. Moorpark Rubbish Disposal takes its materials to City Fibers. Business recyclable materials may be sent to other sites, especially cardboard, which is collected and hauled seperately.				
7010-FR-LAN	Landfill	Yes	Selected and Ongoing	
Additions to Program Notes: Per 2005 AR: The City of Moorpark continues to use the Simi Valley Landfill for its disposal needs.				
7030-FR-CMF	Composting Facility	No	Selected and Ongoing	Government
Additions to Program Notes: Per 2005 AR: The Simi Valley Landfill and Recycling Center continues to collect the majority of the City`s reported greenwaste, which is used for erosion control and ADC. The City supports ADC as diversion, but recognizes that compost is a better use when possible, which is why it encourages grasscycling for its own landscape. Other greenwaste collected by private landscape firms may be used for direct compost facilities, however numbers have not been reported at this time. Updates to the City`s ordinance may be able to create a monitoring system for landscaper greenwaste.				
7040-FR-ADC	Alternative Daily Cover	No	Selected and Ongoing	
Additions to Program Notes: Per 2005 AR: ADC practices noted in previous year`s AR.				
8020-TR-TRS	Tires	No	Selected and Ongoing	All sectors
Additions to Program Notes: Per 2005 AR: The City has not noticed any increase in illegal disposal of tires. Adequate tire diversion appears to be occurring.				
9000-HH-PMF	Permanent Facility	Yes	Selected and Ongoing	Residential, Commercial
Additions to Program Notes: Per 2005 A.R: As of 2005 the City has two used oil collection centers. One of the centers, Jiffy Lube, also collects used motor oil filters.				
9010-HH-MPC	Mobile or Periodic Collection	Yes	Selected and Ongoing	Residential
Additions to Program Notes: Per 2005 AR: In 2005 461 vehicles attended a HHW event, a 6.5% increase.				

000056

9020-HH- CSC	Curbside Collection	No	Alternative and Ongoing	Residential
-----------------	---------------------	----	----------------------------	-------------

Additions to Program Notes: Per 2005 AR: Bulky item collection continues to collect electronic waste.

9030-HH- WSE	Waste Exchange	No	Alternative and Ongoing	All sectors
-----------------	----------------	----	----------------------------	-------------

Additions to Program Notes: Per 2005 AR: Hazardous waste exchanges not available at Simi Valley HHW events (City of Moorpark contracts with Simi Valley). Exchanges at MSE Environmental are determined by them. City of Moorpark also encourages residents to us VCMax to look for possible outlets for useable materials such as paint or household cleaners.

9040-HH- EDP	Education Programs	Yes	Selected and Ongoing	Residential, Commercial, Industrial
-----------------	--------------------	-----	-------------------------	---

Additions to Program Notes: Per 2005 AR: The City of Moorpark sends 6 inserts per year to every residential and commercial unit in the City of Moorpark. These inserts include information on the City's HHW and CESQG programs. HHW information is provided to school children so that they can take the material home to their parents, who often save the HHW schedules for their own use. Information is also provided on the City's website, Channel 10 info. page, and City Council meeting announcements.

9045-HH- EWA	Electronic Waste	No	Alternative and Ongoing	Residential
-----------------	------------------	----	----------------------------	-------------

Additions to Program Notes: Per 2005 AR Update: All e-waste collection methods remain in place. Temporary collection events are anticipated to begin in 2007.

C-2 New SRRE and HHWE programs.

No program added during this reporting year.

Section H - Additional Infomation

On January 9, 2005, the Ventura County Sheriff declared a Local Emergency Disaster in response to flood damage. The flood disaster generated 21 tons of debris for the City of Moorpark. Although this amount of material does not affect the City's diversion credit, it wanted to recognize that this tonnage could be removed from the City's total disposal tonnage.

Model Annual Report**Venue/Event Summary**

This Venue/Event Summary is an official record of this portion of your CIWMB Electronic Annual Report submission. This information is not duplicated in the Annual Report Summary.

Jurisdiction: Moorpark

Report Year: 2005

Annual Report Submitted On: Not Submitted

3rd of July Celebration**Physical Address:**

4550 Tierra Rejada Road
Moorpark, CA 93021

Mailing Address:

799 Moorpark Avenue
Moorpark, CA 93021

Type: Other Event

Type 'Other' Description: The 3rd of July Celebration is the City of Moorpark's July 4 event. The event includes live music, food vendors, games and activities, and fireworks.

Website: www.ci.moorpark.ca.us

Does the venue/event have a written waste diversion/recycling plan? Yes

Describe plan and timeline for implementing the plan: Recyclable materials were collected in 2005. Beginning in 2006, new recycling cans for beverage containers were provided throughout the event site.

To what extent has the venue/event implemented its written plan or informal diversion/recycling activities? 76-100% Implemented

Notes:

Disposed Tons: 2.19 **Diverted** **Est. Diversion Rate:** 4%

Tons: 0.08

Downtown area
Moorpark, CA 93021

Mailing Address:

225 W. Los Angeles Avenue
Moorpark, CA 93021

Type: Fair

Website: <http://www.moorparkchamber.com>

Does the venue/event have a written waste diversion/recycling plan? Yes

Describe plan and timeline for implementing the plan: Solid waste service is donated by G.I. Industries (Waste Management, Inc.). In 2005 all solid waste was disposed of. Diversion will begin in 2006. The City of Moorpark will donate 30 recycling containers, which will be emptied by Country Days Committee. Cardboard and misc. paper will be recycled by G.I. Industries. Beverage containers will be collected and taken to a beverage container buy-back center by Country Days volunteers.

To what extent has the venue/event implemented its written plan or informal diversion/recycling activities? 76-100% Implemented

Notes: Recycling began in 2006.
